

ICT Research Academy

The ICT Research Academy is designed for Los Angeles area high school students (rising sophomores through seniors) who already have a track record of STEM commitment and engagement. Research Academy students will be placed in a research lab where the students will be integrated with ongoing research projects. The students will participate in many different facets of research while gaining valuable insight and experience. Each student will be paired with a research lab based on the student's interests and the availability within the research lab.

Applications are due **April 17.** Don't miss this great opportunity!

Start Date: **June 12, 2017**
End Date: **July 21, 2017**
